Duress Systems for ANY Environment!

Hotels
Secure your staff with a Wireless Duress System from BEC. Using a proprietary wireless frequency, our system provides a reliable signal to any-sized facility, without using your facility's network or WiFi.

Input to Output:
Transmitters include:
- Emergency buttons
- Motion detectors
- Pendants
- Smoke detectors
- Access control alerts

Receivers include:
- Smartphone app
- Telephones
- Pagers
- LED scrolling display
- Two-way Radio

Manage and monitor the system from either a PC, or Desk Console.
BEC will help design and pre-program a system that fits your requirements! Contact one of our experienced system designers TODAY!

Schools

Courthouses

Malls

...And More!
